

GUARDIAN® SERIES 8-13 kVA AUTOMATIC STANDBY GENERATORS

*Protect your lifestyle 24/7
against power outages*

Smart, User Friendly Controls

Control generator diagnostics and get information at a glance with Generac's user-friendly Nexus™ Controller—the most comprehensive available.

Engines Built Specifically for Generator Use

Generac's OHVI® engine, the only engine specifically designed for generator use, provides the reliability needed to power through the most severe power outages.

Utility Grade Power

TruePower™ Technology delivers clean, stable power for the safe operation of sensitive electronics and appliances.

Remote Monitoring from the Comfort of Home

Wireless remote monitors (sold separately) allow you to observe generator status, set operation parameters, and more—all without leaving the comfort of your home.

Choose the #1 Selling Home Backup Generator

Generac's Guardian® Series provides the automatic backup power you need to protect your home and family during a power outage. Connected to the existing LP or natural gas fuel supply, it kicks in within seconds of determining power loss—automatically—and runs for as long as necessary until utility power returns. With Generac's Guardian Series, life won't miss a beat.

How much power do you need?

Use the residential sizer tool at generac.com to understand what size generator you need. Ask your electrician or Generac approved installer for an accurate assessment and installation.

8-13 kVA (KILO VOLT AMPERE)

8-13 kVA Guardian Series generators provide either essential circuit or whole house coverage, depending on the transfer switch option:

- Powered by the Generac OHVI® engine, designed specifically for generators
- Easily connects to existing LP or natural gas fuel supply; quickly converts in the field
- Composite mounting pad included, making installation easier in places where a concrete pad is not required
- Galvanneal steel enclosure features RhinoCoat™ finish for superior weather protection; withstands winds of up to 150 mph
- TruePower™ technology provides clean, smooth operation of sensitive electronics and appliances

Rated Power (liquid propane/natural gas)	8 kW	10 kW	13 kW
Generator Only Model#	5914	5915	5916
Rated AC Frequency	50 Hz	50 Hz	50 Hz
Voltage (Single Phase)	220V		
Amps @ 220V LPG	36.4	45.5	59
Amps @ 220V NG	31.8	45.5	59
Engine/Alternator RPM	3000/3000		
Engine	OHVI / 530cc	OHVI / 992cc	OHVI / 992cc
Fuel Consumption @ full load LPG cu. ft/hr (gal.hr)	70 (1.93)	84 (2.3)	94 (2.7)
Fuel Consumption @ full load NG cu. ft/hr	220	220	261
Quiet-Test Mode	No		
db(A) at normal operating load	60	60	60
Automatic Transfer Switch	100 and 200 Amp Non-Service Rated Switches Available		
Enclosure	Steel		
Enclosure Color	Bisque		
Warranty	1 Year Limited		
Dimensions (L x W x H, in inches/millimeters)	48 x 25 x 29 / 1219 .2 x 635 x 736.6		
Weight (lbs/kg)	387/175.4	425.5/193	445/202

Dealer Service Network
